

## **16:765:609 Seminar in Plant Biology (1 credits)**

### **Normally Offered:**

Fall Semester, yearly.

### **Instructor:**

Dr. Stacy Bonos

### **Pre-requisites and other registration restrictions:**

Open to Graduate Students only

### **Format:**

One 80-minute lecture and discussion period.

### **Description:**

Development of communication skills needed by professionals in the field of Plant Biology through student oral and poster presentations.

### **Grading**

Grades will be based on class participation as well as your presentations. Students will (anonymously) critique each other. You are expected to attend all classes and to be an active participant in class. If not, your grade will reflect this. One third of your grade will be based on class participation and the other two-thirds will be based on your presentations.

### **Other requirements:**

Each student is required to prepare and deliver a professional 30 minute oral seminar and poster presentation that will be advertised to the Plant Biology and Pathology Department and the general public.
